Case ID: IT16000010

Case Registration Date: 12-Sep-2016

Case Location: Trento

Location Country: ITALY-IT

No. of Family Members Travelling: 1

No. of Family Members Under 12: 0

Case Members

Abdul Raza PRINCIPAL APPLICANT

Sex / Age: M / 26

Date of Birth: 13-Jul-1990

Phone: +39 0461 234567

Individual Registration Date: 12-Sep-2016

Ref: 123456789

Current File: 123456789

E-PHR

The E-PHR and its platform aims towards a unified approach at EU level to foster the health provision of arriving migrants, facilitating follow-up and continuity of care. Data collected during the Health Assessment (HA) can be retrieved as individual cases or in aggregated form.

HANDBOOK FOR HEALTH PROFESSIONALS

A guidance for the voluntary assessment of the health status of refugees and migrants in the EU/EEA. Available in 9 EU languages and in Arabic. Developed by IOM in collaboration with the EC intended to support Health Professionals (HPs) during HA.

MEDICAL ASSESSMENT > IT16000010

SUMMARY FINDINGS (PHR SECTION I)

Significant Medical Condition Identified?

☐ Yes ☐ No

☐ Physical impairment / disability ☐ Significant mental health

Other Significant medical condition? (specify)

MEDICAL ASSESSMENT

The conceptual design of the E-PHR fosters the centrality of the individual and allows HPs to get a view of the health status and needs of the migrants. The E-PHR is easy to fill in and will allow HPs within different countries or within the same to update the status of the migrant.

DATA PROTECTION

Only selected personnel, identified by the respective health authorities, will have granted access to the encrypted platform. It complies with the IHR and Directive 95/46/EC: Protection of personal data and its free movement. Built-in Consent form in compliance with Member States' regulations.

CONFIDENTIAL

PERSONAL HEALTH RECORD

The PHR can be provided to the migrant
