SLUŽBA VLADE REPUBLIKE SLOVENIJE ZA RAZVOJ
IN EVROPSKO KOHEZIJSKO POLITIKO

THE END OF THE *CYCLE AROUND THE GLOBE* ACTION

LJUBLJANA, 11th September. Yesterday, on 10th September, was World Suicide Prevention Day. In this respect the *Cycle Around the Globe* action ended, which was organized this year by OZARA Slovenia, National Association for Quality of Life, National Institute of Public Health, UP Andrej Marušič Institute Slovene Center for Suicide Research and Slovenian Association for Suicide Prevention in the framework of the MOČ project, which is financed from Norwegian Financial Mechanism Programme 2009–2014.

International Association for Suicide Prevention is the initiator of the action on the global level. For the third year in the row, the Association set a goal that the participants from all over the globe would jointly cycle 40,075 kilometres, which is equal to the circumference of the Earth, and thus symbolically tie a bond in the efforts for suicide prevention. The action is carried out all across the world and everybody can join in. This year, Slovenia contributed 23,830.40 kilometres. The participants regularly posted the photographs and their experiences on the event's Facebook page. You can see them [here](#).

We wish to express gratitude to all the participants for all their strain and help in the efforts for suicide prevention.
