

## **Notification to a person who has been in contact with a person with whooping cough and who has also developed the disease**

Date:

Dear Sir, Dear Madam,

You have been in contact with a person who has whooping cough and became ill with symptoms of the disease yourself. Please take this notification to your selected personal physician, who will:

- prescribe appropriate medication therapy, if they think it is still reasonable;
- check your records of whooping cough vaccination and vaccinate you after your recovery if necessary.

Make sure you bring your health insurance card with you.

With kind regards,

Name and surname of the contact person
